MONEY, STOCKS AND BONDS.

-Bullish Foreign Advices the Cause.

Another Active and Strong Market at New York, with Higher Prices Recorded. NEW YORK, Aug. 25 .- Money on call was easy, ranging from 21/2 to 3 percent., the last loan being made at 21/2 percent.; closing offered at 21/2 per cent.

Prime mercantile paper, 51/2@61/2 per cent. Sterling exchange was quiet and heavy at \$4.831/2 for sixty-day bills and \$4.85% for de-

The total sales of stocks to-day were 265,-824 shares, including the following: Atchison, 42,885; Canada Southern, 4,160; Chicago Gas, 6,810; Delaware, Lackawanna & Western, 16,703; Erie, 12,805; Lake Shore, 9,795; Louisville & Nashville, 11,290; Missouri Pacific, 7,165; Northwestern, 3,520; Northern Pacific preferred, 11,660; Reading, 6,810; Richmond & West Point, 6,007; St. Paul, 22,168; Union Pacific, 12,660.

The stock market again was active and strong to-day; the same stubborn strength. with a moderate degree of activity among the leading stocks, was shown, and while the net improvement outside of a few shares, which received special support, are small, the advance reached all portions of the list. The European "shorts" are said, by those in a position to know, to be covering their shorts and there was undoubtedly heavy buying for foreign account in the morning, her rially to make the strong opening and further advances of the forenoon. The buyers of Northern Pacific preferred, Rock Island and some other stocks yesterday were inclined to realize on the profits accrned, but even these stocks afterwards felt the stimulus of the continued steady demand for stocks, which has been a great factor in preventing any material reaction. even when the street was almost unani-mously asking for it. For the last two days there has been a less professional look about the dealings than usual for a long time, and the buying is considered excel-lent, while many of the sold-out bulls who were looking and working for a reaction last week have concluded to get aboard at the higher level and float with the tide.

The opening gains this morning extended to is per cent., and while, in the subsequent dealings, St. Paul and Atchison were rather unduly prominent in the trading, they did not make any material advance more than the rest of the list until late in the day, when the latter spurted upward, notwith-standing a rumor of a heavy floating debt. The grangers, in fact, were given rather a secondary position in the market, as far as strength is concerned, and their place was taken by the trunk-line stocks, among which the Vanderbilts were, of course, most prominent. A great deal of the buying in these stocks was credited to foreign operators, and the fact that they have been reached in the upward movement gave renewed confidence to the buying as giving a more substantial appearance to the speculation. There were several marked advances among the mactive shares, and the gains in the Rio Grande Western stocks, the Chesapeake & Ohios and Great Northern preferred were specially prominent. The advance continued almost without interruption throughout the day; although there was no sharp upward movement, and no lack of effort to prevent it. The only reaction of note occurred in the last hour, but the market at the close was again acteve and strong at the highest prices of the day. The list is almost invariably higher.
Lackawanna and C., C., C. & St. Louis are
up 134 each, Canada Southern and Tennessee Coal each 132, Lake Shore 2 per cent.,
Louisville & Nashville and Burlington

each 14, and Atchison 1 per cent. The activity in railroad bonds was again most marked and the transactions of the day footed up \$2,483,000, de which the Atchison incomes contributed \$424,000, the fours \$110,000, and the Texas Pacific seconds \$336,000. The market was decidedly strong. and while the important gains are few the whole list is materially higher to-night. All the active issues closed materially higher and in many of the others marked

gains were made. Government bonds were dull and firm. State bonds were entirely neglected. Closing quotations were:

TRADING AT CHICAGO.

Wheat and Corn Take a Sharp Upward Turn and Close at Advances.

CHICAGO, Aug. 25.-The trade was treated to a surprise on 'Change to-day. The indications at the start were for for a continuation of the weakness and decline of Monday, but in less than an hour after the opening the indications had all been lost sight of and the markets, which were soft early, became strong before the close. December wheat, which at one time was down to \$1.03%, sold up to \$1.06 and closed at \$1.05%, the rise being due to sensational news from Russia and heavy clearances. Corn was whip-sawed by the clique, and the short sellers who took advantage of the enormous receipts to sell freely were forced to cover in a way which sent prices up 4c or 5c at a jump. September sold off to 6012c, went to 65c and closed at 644c, and October sold at 56% 2604c and closed at 60c. The other markets were quiet and fairly steady. The wheat receipts at the eleven points to-day were 2,079,000 bushels; shipments, 1,442,000. Corn-Receipts, 493,000 bushels; shipments, 258,000. The estimated receipts for to-morrow are: Wheat, 500 cars; corn, 580; oats,

Wheat seemed inclined to weakness to-day, and was controlled mainly by local sentiment. Cables represented foreign markets as strong, Liverpool being quoted 4 @le higher, and the conditions abroad still nad many of the elements of strength. The Mark Lane Express reported weather bad in England and France, with serious damage to crops, with rust and mildew spreading, and flour 2s 6d higher than a week ago. But the big receipts at the primary markets in this country, present and prospective, and the weakness displayed in the domestic markets, with advices from the Northwest that the frost damage has been very light, made the professionals bearish, and there liberal selling, under which December wheat, after selling up to \$1.04% early, broke to \$1.08%. Then the real strength of the legitimate situation a rally of a cent, with sales back to \$1,0434; then it broke to \$1.03%, back to \$1.04% and \$1.04. The wheat on ocean passage in-creased but 344,000 bushels for the week, notwithstanding the enormous export clearances from this country. New York cleared 390,000 bushels wheat, Philadelphia 40,000, and Baltimore, according to private advices, 258,000. The strength in wheat at times was remarkable, the highest prices of the day being made ten minutes before

when December rose to \$1.06 and closed at \$1.054, or I cent over last night. The cause of the flurry was the statement of a Bussian paper that wheat exports from thet country would have to pay a big duty.

Corn led all the other pits in speculative

nervousness and the rapidity and sharp-ness of the fluctuations made the trade crazy. The big receipts—1,111 care—started the market decidedly lower this morning, and the first sales of September were at 60½0 to 61c, and October at 56¾ @57¼ c, and for a time there was plenty for sale at these figures, but everything was rapidly absorbed, and when the selling came to a halt prices quickly started up. Then the early short sellers took alarm and began to buy back what they had so freely sold, but it was hardly to be had, and the scarcity made the shorts frantic to get it, and the price was quickly bid up to 64½c, with an occasional transaction at 65c. At this point the longs began to let go some of their early purchases and there was a quick but irregu-lar drop to 62%c for September, and 57%c for October. There is

evidently manipulation by the clique; their brokers seem to buy freely on all depressions, but when the short sellers get on the run they will only sell at high prices. In this way the short sellers were milked without remorse. About noon there was another nervous rally, and September went to and closed at 644c, and October at 60c.

Oats were quiet and generally easy. September opened at 30% c, sold to 30% c, and off to 29%c, and closed at 30%c. May sold at 38% @34% c and 34% c.

Rye sold at 92@93c for September. The receipts were 2,400 bu.

Pork was quiet and fairly steady. Cudshy and Armour were free sellers of both pork and lard, while Wright bought pork and lard. October pork, old, sold at \$10.05@10.15, and at 12 o'clock was about \$10.15. September sold at \$9.90@10.02½. Lard was quiet at about 6.60c for October and ribs at 6.60@6.62½c. INDIANAPOLIS MARKETS. The Best Day's Trade of the Present Month -Prices Steady.

INDIANAPOLIS, Aug. 25,-The wholesale streets to-day presented a more active appearance, and the common remark was that this has been one of the best business days thus far this month. Merchants are getting home from their summer vacations and shaping up matters for a brisk fall trade. In most lines steady prices is the leading characteristic. Grocers had quite a busy day. There have been no new developments in this line for a number of days. in the early part of the week there was a general expectation of a drop in sugar. Markets, however, are a shade firmer, without any material change in prices. Coffees are quiet, with a tendency to lower prices. The provision market is active at the advance on several descriptions of hog products on Monday. The produce markets are active, with prices on most articles in the vegetable line steadier and a shade firmer, but fruits of all kinds are in such abundant supply that prices rule very low. Poultry, buter and eggs are firm at quotations. Other markets are without feature.

GRAIN. The local situation is much the same as for several days as regards prices and volnme of transactions. Track bids to-day ruled as follows:

The Journal has secured for EX-CLUSIVE publication IN INDIANA a series of articles by Lord Wolseley on the late Gen. Von Moltke. The latter was, perhaps, the most interesting military character of this generation, and he and Lord Wolseley were very intimate. These articles will abound in personal interest, and will be found in NO INDIANA NEWS-PAPER except the

SUNDAY JOURNAL. The first of the series will be printed in the issue of Aug. 30.
